

Ryan J. Murphy

Douglaston, NY | ryanjmurphy049@gmail.com | Portfolio: <https://ryanjmurphy.net>

EDUCATION

Northwestern University, McCormick School of Engineering

Evanston, IL

B.S. in Manufacturing & Design Engineering | Minors in Computer Science and Art, Theory & Practice

June 2026

GPA: 3.81/4.00 | Bay Area Immersion Program Fellow | Hispanic Scholarship Fund Scholar

Relevant Coursework:

User Experience Design | Human-Computer Interaction | Human-Centered Product Design | Visual Storytelling | Design Thinking & Communication I–II | Data Visualization | AI & Machine Learning | Data Structures & Algorithms

SKILLS

Design: Product Design | Interaction Design | Wireframing | Prototyping | Design Systems | Accessibility-Aware Design

Technical: HTML | CSS | JavaScript | Python | C++

Methods: Human-Centered Design | User Research | Usability Testing | Design Thinking | AI-Assisted Prototyping

Tools: Figma | FigJam | Miro | Claude Code | Cursor | Codex | Adobe Creative Cloud (Photoshop, Illustrator, InDesign)

PROJECTS

SureThing (Senior Capstone Project)

September 2025 - June 2026

- Led UX research and usability testing for a novel medical device addressing urine collection challenges for women, translating user needs and technical constraints into product requirements
- Conducted 10+ user interviews and iterative usability tests to identify pain points and evaluate design solutions
- Designed and refined prototypes based on user feedback, balancing usability, comfort, and technical feasibility
- Developed the SureThing brand identity, including naming, visual identity, and packaging, to create a unified product and brand experience

Amazon Music (Bay Area Immersion Program)

January - March 2025

- Partnered with Amazon Music's product team to explore new community-driven listening experiences
- Conducted 20+ user interviews, uncovering unmet social listening needs that informed four product concepts
- Translated user research into product requirements, user flows, and interactive prototypes, balancing user needs with technical feasibility
- Presented prototypes to Amazon Music stakeholders, articulating design rationale and user impact

Step City (Bay Area Immersion Program)

January - March 2025

- Led UX research that identified key behavioral barriers to fitness consistency, informing the product strategy
- Defined a product strategy centered on gamification, habit formation, and milestone-based progress, translating research insights into a mobile experience that encouraged consistent fitness habits
- Designed wireframes and interactive prototypes in Figma, refining the product through user feedback and iteration

EXPERIENCE

Live Time | New York, NY

June - August 2025

Product & UX/UI Design Intern

- Led an end-to-end mobile app rebrand, creating a cohesive user experience for an App Store app
- Redesigned 150+ low and high-fidelity screens, balancing user needs, business goals, and engineering constraints
- Built a component-based design system, improving interface consistency and design-to-engineering handoff
- Collaborated with founder and software engineers to translate design concepts into implementation, reducing development friction

Design for America, Northwestern Chapter | Evanston, IL

January 2024 - May 2026

Operations Chair

- Coordinated operations, onboarding, and scheduling for a 40+ member multidisciplinary design organization
- Led workshops on interface quality, design systems, and Figma best practices to strengthen members' skills

ACTIVITIES

Co-President, The Setup (Northwestern Stand-Up Comedy Club)
